# WHAT DO WE OFFER?

**Growing up puts your business on a bumpy road.**

Let us support you on this one so you can focus on what's really important – we mean fulfilling your dreams, silly.

## FIX DESK

A safe haven for your business? A neighbourhood type who likes to know his or her peers? We have something for you. A dedicated desk of your own! This option also suits bigger teams, especially those who enjoy the benefits of open space.

## OFFICE

Need private and secure offices? We can accommodate companies of 1-50 employees (even more when needed), so you won't lose the sense of being together as a team. Each space is move-in ready and customizable (to a point) to fit your needs and company culture. If your team likes a little more privacy, but still prefers to keep it close to the community, this is the way to go.

## ONE DAY

In a city for a day? Need a place to crash? Tired of working in a loud café? Bring your gear, take a seat and get to work. We even throw in some credits for a conference room and printing. The rest is on the house.
