It wasn't mentioned in the video, but thanks to the app we can finally do our custom made **timesheets on our phones.**

The Seesame app is an
experience worth sharing.

**That is why we are putting it
on the market.**

We can repaint the app to pink, yellow, or green. A circle can become a square or a triangle. We can **customise the app's functions** based on clients' needs.

That is what we
